San Luis Obispo Regional CERT Annual Meeting

60 Seconds

Let's make sure we are ready for any type of disaster that could occur in our county. Do you know what to do?

The first step is to discover a CERT near you by attending the ***San Luis Obispo Regional CERT Annual Meeting on Monday, March 2nd from 6:00 – 7:30 pm at the Sheriff's Honor Farm.***

A Community Emergency Response Team, or CERT, is a group of local volunteers who help educate others about disaster preparedness and train them in basic disaster response skills.

We all know about the many disasters our state has endured the last few years – a major emergency could happen right here in our community. It's time to get ready!

Properly trained CERT members have the knowledge and experience to not only help our community prepare for a disaster but to participate in the response.

Come learn how to be an active part of your safety so you are able to better protect your family, friends, and neighbors when the unexpected occurs.

Plan to attend the Annual CERT Meeting on March 2nd. For more information go to SLORegionalCERT.org, that's [S L O Regional C E R T.org](http://SLORegionalCERT.org)
